
Wallbridge Gilbert Aztec (WGA) is a national, multi-disciplinary business that provides consulting engineering services.

Our ethos is based on developing long-term collaborative client relationships, and delivering innovative, buildable and economical solutions.

The Directors of WGA are committed to providing an environment conducive to continuous improvement, enabling staff to develop their full potential and to ensuring quality services are provided to our valued clients.

CORE PRINCIPLES:

- **Client Focus** – We enjoy developing long-term collaborative client relationships built on respect, performance, honesty and trust
- **Technical Excellence** - We take pride in creating innovative solutions which add real value and deliver quality outcomes for our clients
- **Great People** - We attract and develop talented professionals by providing a flexible and enjoyable environment which promotes creativity and growth

OBJECTIVES:

- Ensure client satisfaction by providing a high level of quality in all our work
- Provide a supportive and collaborative working environment for our employees so they can create innovative solutions and quality outcomes for our clients
- Provide training and continuous improvement so we can deliver technical excellence and create long-term collaborative relationships with our clients

Our professional standards are based on the guidelines of the Institution of Engineers, Australia and its Code of Ethics, and we expect staff to act with honesty and integrity at all times, following our business management systems in a responsible manner, and using sound judgement.

Our systems are based on the requirements of:

- ISO9001 – Quality Management Systems
- AS/NZ 4801 – OH&S Management Systems
- ISO14000 - Environmental Management Systems
